### The Google file system

S Ghemawat, H Gobioff, ST Leung - ACM SIGOPS Operating ..., 2003 - portal.acm.org

Page 1. The **Google File System** ... All metadata is kept in the master's memory. The first two types (names- paces and file-to-chunkmapping) are also kept persistent by logging mutations to an **operation log** stored on the mas- ter's local diskand replicated on remote machines. ...
